

**SELF RELIENT INDIA
(ATMANIRBHAR BHART)**

Time has come,
To give flight to your dreams.

Time has come,
To give proof to everyone
With dedication and passion.

But before that flight
Together let's make one rule
By keeping a ray of hope together
Let's make our country self reliant.

Listening to the new story of success.
The dream which has been drawn by God,
Now transform the heat into a lateral
By keeping man and passion together
Let's make the Country self reliant.

Depending on another country for our need

for our need

It's signifies the weakness of our

Country

But when the joy of the people

Burn into your heart,

It'll change the dates of our country.

By keeping such strong thinking

Let's build the country self reliant

Whatever problem has come

to our country,

We've defeated by the unity.

Our feet willn't stop

Untill we're breathing.

We'll attain our goal

As we've started for it!

Let's build one such India,

Which is self determination

Where there is only email of India

In every products,

Where our local product

Have the global brand.

Let's build a India

As a self reliant Country.
