

PATRIOTISM PAYS

A patriotic person can make the country reach greater heights, and undoubtedly our soldiers stand as the symbol of patriotism at the cost of their own lives....

India is my country
Nothing can match its beauty
Our country is more mighty
When soldiers do their duty.

Their sacrifice makes us speechless
I admire them for being selfless
Despite knowing life is priceless
They are always ceaseless.

Be it Kargil or Pulwama or Ladakh issue
Its them who fight for us
With no assurance for life
They undergo every strife.

They stay in crucial borderside
Just to make us safe inside
What do they get in return
Even family is unsure of their return.

Be it the freezing cold in Siachen
Nor the scorching sun could stop them
Endless fights make them restless
Yet their struggle is endless.

Ask not what the country has done for
Ask what u have done for the country.
They do it everyday
Thinking not of holiday.

I learnt what love for country is
They said its patriotism
Being a responsible citizen
I express it in every way.

NCC CULTIVATES PATRIOTISM

It inculcated within us discipline
It instilled us in punctuality
It enhances our perfection
It strongly cultivated patriotism.

Even the timid ones turned bold
Not taking into account the cold
All of are being mould
In the best way we could.

This poem is composed by a sincere NCC CADET who keeps gaining so much from NCC and has reached greater heights in patriotism and willing to express in all possible ways
