

PERSONAL EXPERIENCE OF SIGNIFICANCE

It is rightly said by Shaheed Bhagat Singh “Bombs and pistols don’t make a revolution. The sword of revolution is sharpened on the whetting stones of ideas”. The National Cadet Corps is the Foundation pillar behind a similar Revolution, training around 14 Lakh Cadets each year, of which I am proud to be a small part.

NCC has not only impacted my lifestyle in vivid ways but also molded my personality to be at its best. The early morning workout sessions, drills in the scorching sun, the insightful lectures were all topped with the Vibrant Cultural Activities and garnished with a sense of National Pride.

The Organization has provided various glances of delightful memories which are cherished by several generations of Indians. Although the journey might seem a little tough but difficult roads often lead to Beautiful Destinations. NCC has not only molded youth of this nation in a spectacular frame of Unity and Discipline but has also instilled a great sense of Nationalism in all of us.
