The Soul of India is its Constitution,  
Its light, path, direction and Foundation

At last, in November nineteen Forty nine,

Constitution was fully enacted and adopted

It was signed by our president

Day when Constitution of India was

enforced legally

Day when world got its longest

Constitution.

Day when my motherland was declared  
a Sovereign, secular, Socialist, democratic

Day when citizens were assured justice  
equality, liberty and Fraternity

A child of the Foresight of Ambedkar,

A great edifice raised with love and care,

After truly many great mental wars

The light of nation's life process,

Its life, strife, subtle shifts under stress,

Indian Constitution guides India forward

To be the leading nation of world

The laws and rules that uplift all people  
sprout from the womb of good constitution,  
welfare of all is primary concern  
who limits by constitution, a good citizen,  
who never ever regrets his faith in the Constitution

Through this the Constitution makes  
conveyed the dream image that had of India  
The Constitution declared India as sovereign,  
Liberty of thought, expression, belief,  
Faith and worship  
Equality of status & of opportunity;  
and to promote among them all  
Fraternity assuring the dignity of  
Individual and unity and Integrity  
of nation

Socialist, secular and democratic republic,  
It assures to serve India public,  
with Justice, Equality and Liberty,  
Even promise to enhance Fraternity  
with hope to make every Indian happy  
that's road to a prosperous India
