

“INDEPENDENCE OF INDIA”

A dream seen in 1857, became true in the year 1947.
Lots of struggle and wars, were seen by the fighting stars.

Gandhi, Nehru and Bose, brought the exploitation to a pause.
Made India an autonomy, to stop the British hegemony.

The principle of non-violence, brought a lot of confidence.
The cruel and barbarous, became soft and generous.

Life became happy and free, India became a democratic country.
We all have right to fly our ambitious kites.

Our life is our nation, our nation is our life.
Our nation is our first identity, we will work for its unity.

India's tradition and culture safeguards children's future.
Festivals and beliefs, always make us relive.

Will our future generations believe it, we will have to reveal it.
The country which you belong, has struggled for a long.

You have wings to fly up and high,
freedom to reach the blue sky.
