

EK BHARAT SHRESTHA BHARAT

My experience during the EBSB saptah- 22nd March to 27th March 2021 - online webinar

Ek Bharat shreshth Bharat(EBSB) is backed up by the govt which aims to unite India's cultural integrity,of which everyone needs to be aware of. It helps in bringing back the roots of different states culture and it's people. More or less, it's a revolutionary movement to emphasize what is meant to be a social animal. It also emphasizes in sharing each other's ethical values and foundation principles which meant to pave paths for better future. Govt of India took bold and unshakable steps to address 'be sharing' which were emphasized by our elders from ancient days.

National integration camps are held on all amongst various states of India. And the camp which I attended was conducted online, due to the pandemic.The camp was conducted through a webinar where cadets from Andhra pradesh & Telangana and uttarakhand directorate participated. The webinar's duration was 3 hours daily, from March 22nd to march 27th. The idea of attending an online camp, gave birth to renewed vigour in the cadets and also the ANO's. I was very enthusiast to join the camp and learn new culture and languages. During the EBSB saptah we grew immense knowledge about the cuisine, culture, traditions, tourists places,art and crafts of the guest directorate .i.e. Uttarakhand directorate .In this saptah we also participated in a very interesting activity in which we learnt many sentences of uttarakhand state's and Andhra Pradesh & Telangana state.

And in this webinar the ANO'S and all the cadets were very cooperative, which resulted in successful completion of the camp.

This camp was not limited only till the culture and traditions, but it also gave us the opportunity to know about the importance of conservation of water. Cadets from different units made many presentations, skits and dance performances to spread awareness about the water conservation.

Attending this camp helped me to know about the mental disturbances during this pandemic and how to stay healthy even during the time of pandemic.During this six days camp there were other sessions on leadership qualities where we learnt about 5 to 6 great leaders of both the host and guests state.

on the whole we learned many new things which wasn't possible without the EBSB webinar program. This webinar showed why it's important to know about other cultures and languages. It explained the importance of the water. It also boosted up my confidence and my positive thinking in this pandemic.
