

Name – Prateek Chandra Tiwari
Regimental no.– UK/SD/19/A/100537
Unit- 29 UK BN NCC
Group- Dehradun
Directorate- Uttarakhand

MY NCC EXPERIENCE

As I am pursuing my graduation in Journalism & Mass Communication from Graphic Era University, Dheradhun, I have got a golden opportunity to be a part of India's esteemed young brigade - **NATIONAL CADET CORPS**

Since childhood, I have always dreamed of how my fathers life would be in defence . I have always been eager to know about how things actually work in the defence organization. But nevertheless I got a chance to encounter these things on my own.

“ The Making of a Cadet” that's what I will call my NCC journey. For a NCC cadet their tenure in NCC is only about three years. But these three years will give you lifelong memories of friendship, Camps, Activities that one may cherish for a lifetime . The bonds cadets share with their fellow comrades can not be defined in words or phrases . The Cadets share their sweat , thoughts, ideas , views in building the organization . These values add up to making our nation a great nation by bright & young minds of India.

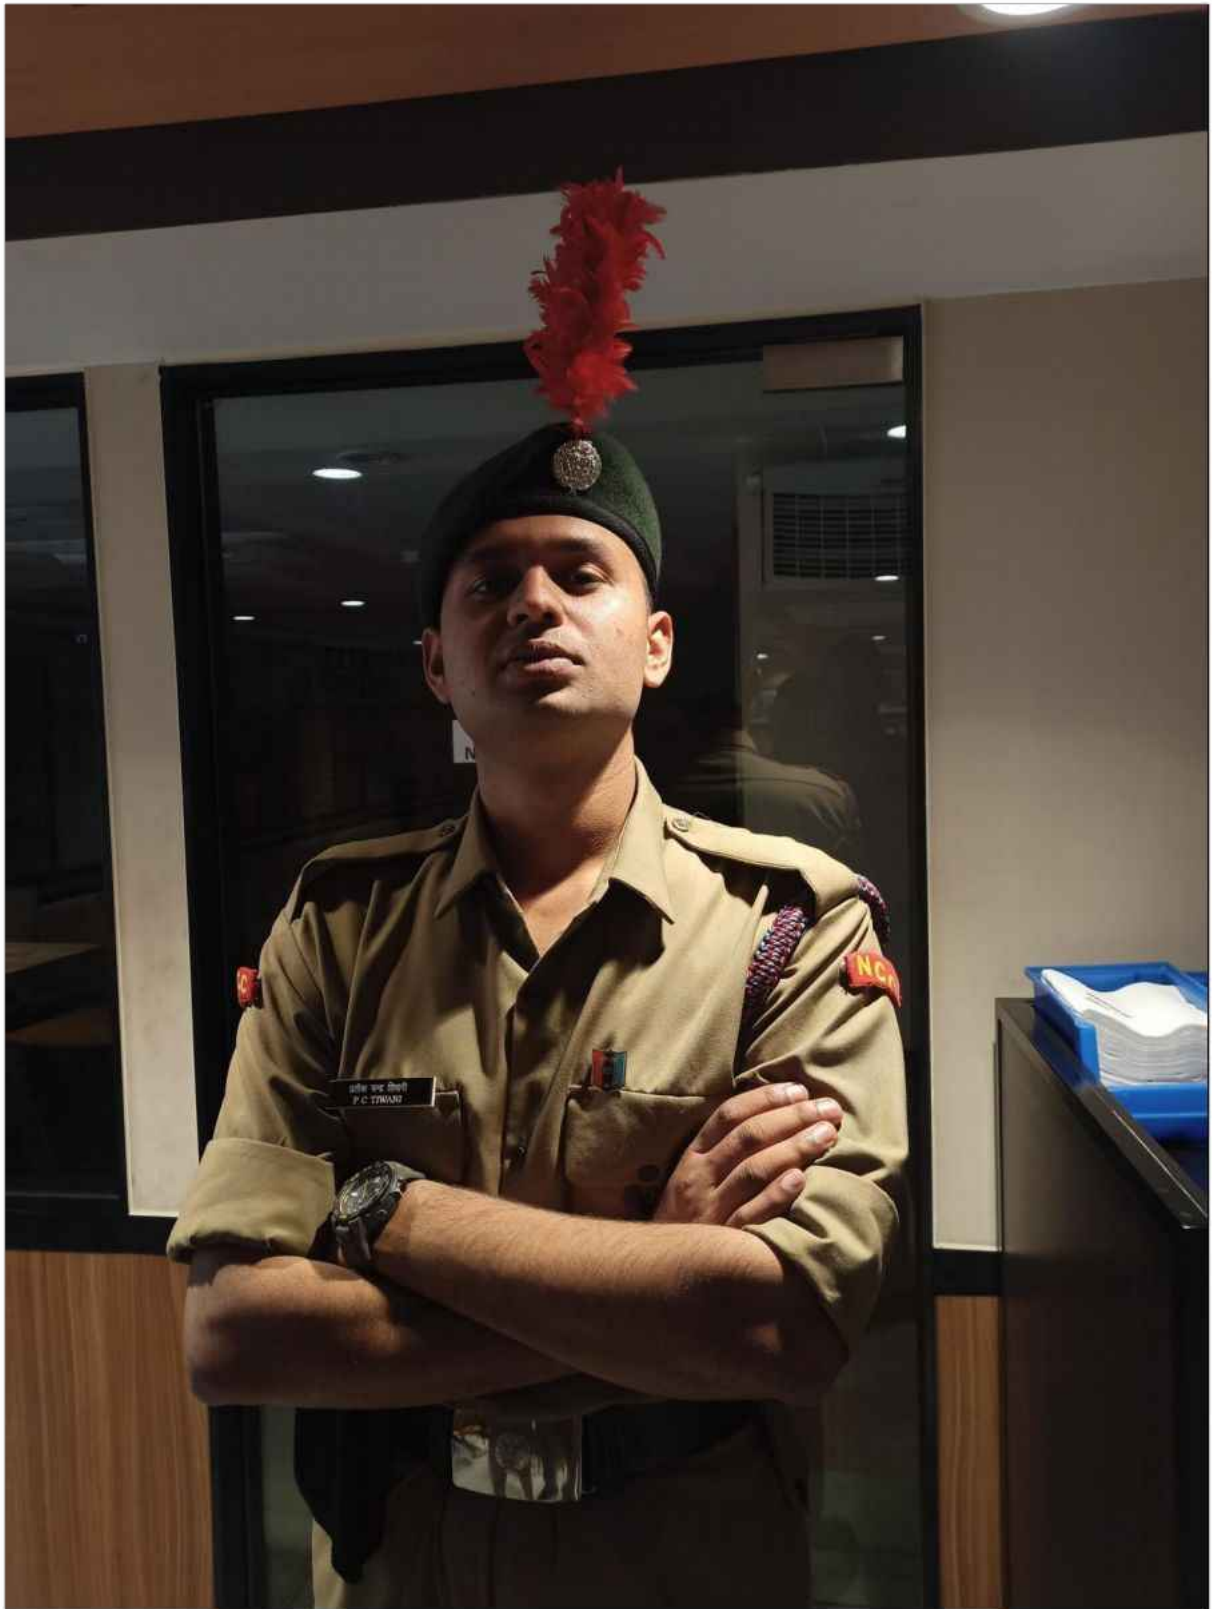

NCC has always given me the platform with great exposure in the field of sports and academics. I have participated in an online camp of Ek Bharat Shreshtha Bharat conducted by Rajasthan Directorate . Where I learnt more about harmony in India. Camp like these teaches us how diversified India is , in colours , culture , linguistic , geography and much more. And it has also taught us the integrity of India . EBSB has the aim to foster a sense of unity & nationalist amongst NCC cadets .

I have also participated in a cleanliness drive organized by my 29 UK Bn. This was a really fun drive , as we helped in getting our city clean. As we have promised & pledged to our Prime Minister Modi that we will clean our city in order to keep India clean and clean. So in the end I would like to say that NCC has made me a **CADET & most importantly a GENTLEMAN from a civilian guy .**
