

CAMP EXPERIENCE

I attended a cadre camp from 18/02/2021 to 20/02/2021 in BTG, Secunderabad. Unfortunately, we didn't get a chance for 10 days ATC due to covid crisis but our seniors and PI staff have put all their efforts to make us learn as much possible in those three days. Every morning, first of all our seniors used to check our uniform and then we have some warm up activities like running, push ups followed by drill with added joy of 'ragada'. Guest lectures were conducted on fire prevention, traffic rules and regulations, medical aids in emergency situation. Our PI staff took theory classes on flying as well as common subject. They showed us the static model of aircraft and tried to explain about it practically which helped us to understand the concept very clearly. Also, we had a session on character building skills and career motivation about joining armed forces. We learnt rifle drill, parts of rifle and shooting positions. Our seniors with the help of PI staff showed us how to pitch a tent in a short time. 2nd day, it started raining outside then we all had a nice singing competition between SD's and SW's along with our evening snacks. This camp helped us to develop self-confidence, team work, leadership qualities as well as physical strength. Last day we had interaction with our CO sir and clicked group picture. We also had small swachh abhiyan before leaving the ground. Each day called off with NCC song and National Anthem on a good note.
