

I am Gaganinder Singh

I took part in all the online classes held by our seniors while we were in lockdown.

This was organised to teach us necessary stuff about NCC and other important topics which really helped us in learning more and more about NCC and to get to know our peers and seniors in this time when we cant be present physically. Our batch was not limited by this lockdown from consuming valuable knowledge. We also learned topics such as career counseling, interview skills, communication skills, and many more. There were 36 cadets . we all did this and consumed valuable knowledge even while sitting at home.

I felt really good and was happy that i could learn about NCC and get to know my peers even when at home.I learnt alot. It helped me improve my discipline, as well as communication skills.

I hope you have a great day
