

## EXPERIENCE OF JOINING NCC.

Cadet Sudarshan Kalita, Regiment No: AS20SDA124292,  
BHSK, Commerce College, through these article I  
would like to share my experience in NCC. I feel  
that the life of an NCC cadet is one of the  
best experience I have in my life. The NCC  
provides opportunities to the youth of the  
country for their all-round development  
with a sense of duty. I joined ~~the~~ NCC at  
my graduation level. Joining the second line  
of defence which is known as NCC (National  
Cadet Corps) is full of certain good and  
amazing experiences. The main fact is that, NCC  
cadets live life like an officer without being  
a part of the premier Indian military  
training institutes like NDA and IMA. As the  
motto of NCC is 'Unity' and 'Discipline', I have  
learnt discipline in each an every aspects  
of my life and how to live with unity  
with each and everyone where every I go.  
I have enjoyed a lot in NCC. The main  
thing is that people must know how to  
enjoy the NCC life or a cadet life. It is  
full of adventurous things. By joining  
NCC it had made me physically and mentally  
strong. It teaches me how to do commarade  
ship. There were many camps in NCC like  
the CATC camp, RSC, YEP, etc. In all those camp  
we get to learn many things along with  
the tagnas, and punishment. It was a nice  
journey in NCC.
