

Article about NCC experience

I am cadet A. Poojitha studying diploma in civil engineering in Govt. polytechnic, masabtank, Hyderabad. I am belongs to 1 Telangana EME unit NCC. I would like to share the beautiful experience of my journey in NCC.

I have joined NCC in 2018. I was rejected 2 times in selections. But I couldn't stop in participating selections. At last I was selected. In this 3 years of journey I have learned many things. I have developed communication skills, Decision making & problem solving skills which I was ⁱⁿ poor before joining NCC. I developed orderliness, neatness, tidyness.. etc. while in NCC. It also develops personality development. I have done EME camp in 2019. In this camp we done practical activities in the field what we have taught in various classes like Gun shooting, map reading..etc. During NCC training we meet lot of people. In camps we used to Dance, sing at the night times. They provide the healthy, and delicious food we enjoyed it a lot. During the camp I became strong physically and mentally.

The most essential part of NCC is that you will learn to build Team spirit with each other. Being an NCC cadet was a motivating and enthusiastic feeling for me.

The feeling of patriotism which no one can teach better as in NCC. I play a great role in my life as a cadet. I am very happy to hear my name as cadet A. Poojitha instead of excluding that prefix cadet. A cadet is always a cadet till our death.
