My NCC Experience

It was 21st August 2019 when the enrolment process for NCC(National Cadet Corps) batch 2019-2022 took place in our college (Graphic Era University). A large pool of candidates had arrived to try their best and get the opportunity to become the part of this reputable organization (NCC).I was also the part of that aspiring group, and after going through the rigorous enrolment process I got a chance to be a part of NCC.

The core principles on which the foundation of NCC is laid are Unity and Discipline and the various activities such as the different camps offer a great opportunity to imbibe these characteristics in oneself. On joining NCC I was introduced to the “other boys” who have joined along with me and once the training started in no time these “other boys” became my “buddy mates”. Undergoing the same training and attending the camp together has developed a strong sense of brotherhood and

bonding amongst us and has helped us to develop a sense of unity.

The sense of responsibility and the proud feeling, every time I don the NCC uniform is quite unmatched. Coming from a civilian background, the discipline that we are taught in NCC has given me somewhat an extra edge to even tackle the day to day tasks, as rightfully said it is not the uniform that separates us from the rest but our discipline that makes the whole difference.

There was an event by the name Swachta Pakhwada that took place and the aim was to spread the message of cleanliness through various activities such as poster making ,singing ,dancing ,nukkad natak , etc. In this event I participated in poster making and singing activity along with my buddies and by the hardwork of my buddy mates and guidance of our seniors we were able to win the best institution trophy, it was a proud moment for all of us our hardwork and efforts paid off and it

was quite more special as this was our batch's first event in NCC.

NCC has helped me in building a strong , responsible character which otherwise would not have been possible. It is giving me the moments to cherish for a lifetime. I am sure the teachings that I am acquiring in NCC would help me in my future endeavours.
