

My NCC Training Experience.

By CDT. CINDRELLA K C

The National Cadet Corps (NCC) is a voluntary organization engaged in grooming the youth of the country into disciplined and patriotic citizens. They recruit cadets from schools and colleges across the country and are given basic military training in small arms and parades.

I would like to share the beautiful experience of my NCC training. Due to the covid-19 pandemic I could attend training only for two days. But those two days were worth it. As we don't have seniors, the SD's and SW's of St. Albert's College is helping in training us. I had a lot of expectations when I joined NCC Navy Wing but due to the pandemic I couldn't attend any of the parades, camps etc. With only two days of training I could say that I became physically fit. We were made to run around the whole ground for five times (as we were beginners) each day, also they taught us command, kadam taal, push ups etc. As we all know, Unity and Discipline is the motto of NCC, they taught us how to unite and be disciplined. We experienced military life and orderliness as well. Also made friends for life. Our seniors were very patient in teaching us all the things.
