

My NCC EXPERIENCE AS A CADET

Everyone have a dream to join NCC in his college or school because its give a lot of opportunities , endurance ,a physically make strong etc

NCC Selection first step to Entered the Incredible Journey for everyone's :

In my Selection of NCC PI staffs (Army who works for NCC only) of my respected Unit

1." A " Certificate Holder

2. State or National Sportsman

3. Cap certificate Holder (son or daughter of Ex - servicemen's)

In that time I have only a National Sport Certificate's or I'm not a " A " certificate Holder or CAP holder

,During NCC selection procedure we reported at Morning 6 am sharp with all our documents then we have to go with 800m running and after that our physical test then we have our written test we all cadet also enjoyed in these times because our senior cadets are good in nature and makes us motivated everytime

After all procedure our merit list is also come after few weeks and am so happy to see my name in that list then our first day in NCC as a cadet we meet our p.i staffs they all so well trained and a perfect teacher in parade they

also gives us punishment called as ragda tabhi

Hoga ragda it's means a lot to all cadets

Our senior under officer shibbu sir he gives a lot of armed training and makes us motivated in free time everyone listening him very carefully because its gives us Lifetime confidence etc .

During the training process I learnt drill, coordination, team work, Physical fitness, stamina and also developed a bond with my team mates and seniors. The real forever connection with them sprouted when we attended camps.

I learnt leadership, team work, stress management, time management, communication skills, courage, boldness, health conscious, problem solving skills etc. I learnt all the skills and motivation required to lead an

**independent life and I learnt how we can take
our country forward to a better future by
contributing our-self to this motherland of mine.**

Thank you
