

My experience of cycle rally .

In prior to all kerala cycle rally a trial was conducted by our unit, which was guided by the group commander Brigadier A Y Rajan. The cycle rally was organized by the 9(k) girls battalion of our ncc unit. All the ncc cadets actively participated in this event. The task was to complete 20km ride.

We started our journey from our ncc group headquarters to korapuzha bridge. During the ride we had small conversations with the group commander. The cycling near to the beach made us feel relaxed and calm. We also had conversation with each of our co cadets. Then we reached the korapuzha bridge .and then we also visited the newly inaugurated boat house at vengeli , from there we played some games in order to relax ourselves . We also took pictures with the group commander . After we returned all the way back to our unit.

Here we successfully completed the 20km ride. And we really enjoyed this ride , as this made us so calm and also it helped to engage ourselves physically and mentally at this time of covid pandemic. We also took corona safety measures during the ride. It was a wonderful experience which i will remember throughout my life.
