Ncc Camp Experience

I had attended in first camp is Annual Training camp. Three day camp place in 27 kerala betalian palakkad. but ATC

camp is one of the most memorable camp for me. ATC camp was started 4 march 2021 and end of the camp 6 march 2021. The group of 25 cadets my college going to attend this after three day camp.

In this camp our instructor was ANO she was very entertaining and was also very strict

regarding to training. The camp are so many cadets come from different colleges and different places in palakkad. The camp gave me the good opportunity to communication with other college cadets.

The camp for me more changes in my life. To develop character, discipline, confidence, drill etc. Discipline is the one thing which became an habit in my life. I developed neatness, discipline etc while in ncc. The all cadets, instructors and officers came from different caste, creed, religion, region. However everybody lived in cohesive and friendly atmosphere and develop brotherhood. The camp i saw a lot of palakkad met amazing people from all over. missed a lot of classes and never regretted any of that. Grew confident of achieving anything.

In my first camp experience was great and i was quite happy because this first time i was many college cadets camp

participated. The first camp
experience is so excellent memory
gave in my life.....
