

Name - Hitain Takwal

Reg. No. - UKSD/19/83847

Unit – 1 UK R&V SQN NCC

College – CVASc Pantnagar

Certificate – Uttarakhand

I did not had much idea about the NCC and the activities it conducted but had just heard a little from my parents about that . The day I got to know about them was when I attended the counselling of my college at GBPUAT Pantnagar . Sir present in the counselling hall explained us in detail about the various activities that NCC conducts like camps , horse riding , musketry and the trips off course . Hearing all of this I got delighted and readily opted for NCC over NSS .

I was really excited for college to start and wear my NCC uniform for the first time . Finally my wait ended and I wore that beautiful uniform for the very first time and went for the first day at NCC . The training was really tough as I had not worked out at this level before but at the end I was happy to get a glimpse of military training and also loved the samosa and laddu we received every day after the intense training .

As the training proceeded I learnt many things . I was taught to be disciplined and punctual of time as being late in the parade resulted in punishment . I was punished for being late a couple of times but then I realised and worked on it and now I rarely get punished .

NCC plays a part in almost every social event taking place in the country and I too participated in few of those like the “Swacch Bharat Abhiyan” and making people aware about the benefits of fitness like “Fit India” . Also we encouraged people to maintain the cleanliness in the society and their surroundings by ourselves picking the garbage and disposing them at the right place .

Due to the ongoing pandemic our camp got postponed and later we got just 3 days for the completion of camp which were the days I love the most in my life . We started our day with the parade then we were taught about various weapons , horses and it’s parts and we were also taken for firing on the next day which I enjoyed a lot . We also played cricket in the evening and on the 3rd day there was bonfire and dance which was my favourite moment at the camp .

In this way my camp , the training and the activities for the B certificate came to an end and now after having such a wonderful experience I’m eagerly waiting for my C certificate training to start .
