

2/06/2021

Being an undergraduate student I'm fortunate to be a part of 'National cadet corps'. I haven't had any idea about how NCC was, but now I can surely say that most of the positive changes in me are brought up by NCC. I was inspired to join NCC by seeing our senior party. Seeing their talents, hardwork and achievements really amazed me. From attending co sir's selection interview to many other initiatives till now helped to enhance and improve myself. It will be one thing among those in my life that I won't regret ever after. I had the chance to attend B cadre camp KGPTC, westhill, even though it was a capsule camp, I learned and experienced a lot. I can't express my appreciation towards NCC for making me into a better self. Upholding the values that I got from here NCC, I'll be always proud to say that I'm an NCC cadet.
