

## **My experience in NCC**

I, cadet Upashana Duarah, from 11 Assam Girls NCC Sibsagar Girls College. I have enrolled in 2020 during pandemic situation of Covid 19, having enrollment number AS20SWA128616.

The main motto of NCC is "Unity and Discipline".

I joined NCC as it provides opportunities such as the process imparts us development with a sense of duty to get smarter, built confidence, be responsible and yeah so that in the future I will be able to present myself as a capable human being. One of the most treasured experience for me was to participate in the Republic Day parade on 26th January 2021 as a cadet which was held in the boarding field of Sivsagar. Joining and participating in the parade taught me about hardworking and determination of being in a team. I felt patriotic during the practice period, our team leader made sure that we were all united in marching forward. Another amazing experience for me was to take active participation in the Combined Annual Training Camp held at the Piyoli Phukan Stadium wherein they taught us the different parts of rifle, how it is used and to assemble the rifle and also they taught us how to hold a rifle in proper way and position. Apart from the on-field experiences, I was glad to greet and meet well know personalities Respected Assam Assesment ST/SC Association President and District Sports Secretary Puniram Milli Sir. He was invited as the chief guest on the last day of the Combined Annual Training Camp held at the Piyoli Phukan Stadium. Even during the horrific pandemic situation NCC has given us the opportunities to participation in different activities through digital forum and its teaching us the value of time and how we can manage it. I learnt leadership, team work, stress management, time management, communication skills etc through the NCC programs and activities. In a nutshell, my journey with NCC till now helps me to make me a better human being.
