

# WHY NCC

NCC as the world's largest youth organization has always attracted me because of its adventures ways. Wearing NCC uniform is a prestigious honour. As it is explained in its aims, NCC is to mould an organised youth with character and qualities and to motivate youth to take up career in the armed forces. This organization made me much familiar with armed forces. I got a chance to interact with army officers and also got the opportunity to learn drill and other activities which are basics in the Armed forces. It acts as a platform to improve my character and qualities with active participation I was able to bring a lot of changes in my physicals as well as in personality. Here I am also getting a chance to participate in various camp activities which are rare chances for a civilian. Through these years in NCC I was able to understand myself and understand my strength and weakness which can guide me throughout my life.
