

31/5/2021

NCC made a huge difference in my life which is beyond words. It likes having lots of memories with lots of lessons. NCC is a enormous family where every moment get to spend is precious. I am proud to be part of this family. The first day when my seniors introduced their experiences in NCC I decided to get enrolled. It was my first time got a chance to know about NCC. When I saw my seniors in their uniform, proud expression on their face and their confident at that moment I decided I want to be part of this family. After written exam and physical test I had first interview of my life with CO SR. That time I was afraid but it was exciting. And the moment I was wearing my uniform I felt proud and confident. On each parade I became better and stronger. I learned how to be physically active and responsible. In a short time it made me mentally strong. Seniors were inspiring and supportive. Due to pandemic I didn't had many camps. I had one camp for B cadre exam at KNP, Westhill. It was a great experience. NCC makes me learn many things discipline, physical activity, team ethics, following order etc. NCC is one of the best part of my life.
