

Today I would like to share with you my Experiences in NCC. NCC the National Cadet Corps is a voluntary organization engaged in grooming the youth of the country into disciplined and patriotic citizens. They recruit cadets from schools and colleges across the country and are given basic military training in small arms and parades. That's why I joined NCC in my college without any hesitation.

The first day of my NCC was really awesome. I was curious and quite interested because I didn't know much about NCC and their rules, moreover I didn't here about NCC rules from anyone else. still I love NCC very much. The first day our seniors came and introduce themselves and taught about NCC and it's Moto, principle as well. Also they told us what is NCC and what you are going to do in this 3 years, what is your role, what you want to be and so on. After that class I'm so impressed and that time I decided that I won't give up in NCC for anyone and if I face any difficulties I will strongly break them.

We went to the ground to do our first pated. Our seniors told us to run 10 times that's for warm up. I was too tired that time. After that I really enjoyed doing drill. Besides we got lot of memories through NCC, which give us lot of memorable days. I become more happy when each time we do our pated very well. During the time of pated we can see the feeling of Josh and war in each cadets face. I have attended two camps. One is Annual Camp and other one is NIC camp. The first camp that I was attended is CATC camp. The combined annual training camp. That was held at our college because of corona situations. That was about three day camp. We were happily completed that camp. The PI staffs came to our college and taught lessons and taught about rifles, takepateds all those days. The camp also gave us lot of memories as well. Next camp the NIC camp. that was Ek Bharat Swatch Bharath, EBSB camp attended through online. That's was too amazing and quite interesting one. There were lot of cadets with different colleges and also different states. That camp was conducted by two directorates. Kerala & Lakshadweep and Chattisgarh & madhyapradesh directorate. So I can learned more about Chattisgarh & madhyapradesh directorate .their culture, traditions, cuisine, and so on. That camp about 5 days camp. I got new friends and still we are maintaing our friendship. Before B examination all cadet

should attend atleast one camp. We attended one camp before, the CATC camp. so we were eligible for writing our B exam. Our B exam were held in our bettalion. 24(k) Bn NCC Thrissur. So all cadets at our college went kuttanellur toghater. I think the examination was in two days. First day they conducted our practical examination and the next day conducted written exam. There were lot of cadets from different bettalion and from different colleges. Some of them are girls bettalion and rest of are other bettalion. We talked and made friendship with some of the cadets from the girls bettalion. We successfully finished our practical exam. The exam contain viva and also pated. We done those quickly and because of lot of cadets we have to wait little time to attend our examination. But that not too heavy. that is really dope actually. Next day we went our bettalion as usuall. And done our written exam. I think those days gave us a wonderful memmories and that was really amazing. i can't express my feelings through words. only NCC cadets can realise that feeling.

Really awesome experience. NCC gave more and more things. NCC gave me the strength to speak in front of everyone, gave more confidence, gave leadership quality and gave lot of memorable moments as well. In NCC we have to face lot of difficulties. But we never give up. Because there is a hidden feeling or hidden surprise in every difficulties. We all should

break the difficulties and feel the tremendous feeling. Some of students they wont join NCC because of this difficulties they heard by others. But actually that all difficulties and tiredness gave us a good memmories.
