

01/06/2021

NCC has a major role in building the youth of today as leaders of tomorrow. By this way, they are being keen to contribute to Nation building. I'm one of those honoured cadet to become part of largest youth organisation, NCC. Our senior NCC cadets encouraged me to join the NCC due to keenful and prosperous responsibility towards anything they do. As follows, I got the chance to know more about NCC and its advantageous which provide me a better helpful future on behalf of my nation. I will never forget that sense of pride, responsibility, self confidence and duty. I improved myself in every aspect with the help of our seniors who were very stimulating and expert-one. They taught us the basics of NCC to regimental way of life. I got the chance to participate in the 13 cadet camp at KAPTC, Westhill. It was a better platform to thrive, evolve, develop and display. I got the golden opportunity to participate in Nation Building video as part of the programme associated with National Integration. NCC changed my life, enhanced by goals and targets, exercised my skills and activities and gave way for my all over personnel development
