

Jaihind,

Myself lance corporal Akash C and I am here to share some of my experiences from NCC. NCC has given me many memories. By joining NCC I got many more friends. I have joined NCC with many expectations. I have joined mainly to become a part of voluntary activities and also to participate in the social activities.

We have done many social activities when we were in first year. It was very interesting. But due to this pandemic situation we could only do social activities only for the first seven months. Then things changed to be in online. Then we participate in 'swachhtha Pakwada', 'Fit India'. Like all other I have also dreamed to be a part of a national camp. But due to this situation many camps were postponed. But surprisingly I was selected to attend the EBSB-VII online camp.

EBSB-VII camp was during the month of April. It was a six day camp ~~start~~ starting from 16<sup>th</sup> of April and ending on 21<sup>st</sup> of April. It had given a new experience and memories too. It was conducted with Maharashtra. I have come to know about the language, food and culture of Maharashtra. Also the Kerala group also shared all our traditions, culture and food and also gave a knowledge about our language. There were competitions held. It was debate, quiz. Prizes were given. It was actually a very good experience.

I wish there will be many more good experiences. And wishing this pandemic will end soon. Thank you.
