

As new cadets we were instructed by our ANO sir along with our seniors. In our NCC classes we were given lessons about the various types of drills ,various camps which were held and along with it we were also encouraged to participate in group discussions. As a NCC cadet , I was able to see a huge difference in myself, I was getting physically fit and disciplined , was more outspoken, I had more knowledge about the current affairs and was also able to co-operate with my fellow cadets and stand together in Unity.

My journey as a NCC cadet has made a huge difference in my life, because of NCC , I can see myself as a person who is disciplined ,hardworking and aware of the various things happening in and around me. I am more outspoken, responsible and able to express myself without any hesitation and nervousness. I am more physically active and I donot hesitate to take parts in the various activities.

As my journey as a cadet still continues , I am sure that I will be learning many new things which will have a huge impact and make a difference in my life. Along with it I also hope that everything that I have learned so far , I will be able to teach others and I hope we all can grow together into being

individuals who are disciplined, responsible and hardworking as we are the future of our country.

In our second year of training, due to the covid situation we are mly able to continue the futher progress still with the help of googleroom we meet and talk about the situation.
