

World Environment Day

The key goal declaring June 5 as world environment day is to raise awareness about protecting our environment. The day decided to raising awareness of environmental issues such as global warming, marine pollution, Human over population, ~~and~~ wild life conservation and sustainable consumption. Nature provide us with the foods we consume, The air we breathe, The water we drink, and the atmosphere that allows us to live on this planet. For example, marine plants generate more than half of the oxygen in our atmosphere each year a mature tree cleans ~~in~~ our air by consuming 22 kilos of carbon dioxide and emitting oxygen in return. despite all of nature advantages, we continue to deteriorate it world environment day is renowned as the day for environmental action.
