TOPIC → Responsibilities of the Youth

All over the world it is the youth that are responsible for the new vision of the future, because they are ready to make sacrifices. The youth have two responsibilities.

1) Wipe and clean the dirty face of the past, which is our duty to wards our ancestors who have made a mistake. Forgive them but correct their wrong doings because the world is for you to live, not for the old and the dilapidated. The old want the world for a comfortable death. But you want the world to live. It is your world that is being built before you eyes.

2) As for future, you must with a calm and serene mind, conceive what you want to achieve. For this, your mental quietude is necessary. Our education is important. we must know all the lessons the Past has discovered. In the light of that knowledge and wisdom, we should study what is happening all around us. we are ready

to be alert vigilant and guardian of ourselves. The laws that are being passed are with the shell of selfishness and selfish desires in the present set up. we have to watch and study them so that we'll not be prone to committing mistakes all over again for the common good of the individual and the nation at large.
