

# CATC Experience

Being a part of this prestigious camp which is an important and major experience in the life of any National Cadet Corps student was such an eye opening and honourable part of learning as to what an actual soldier goes through in the field. Even though our experience was limited compared to what a soldier's daily life is like, the glimpse that we got is enough to know the amount of hard work and will they have to have in order to protect the country at the border. This experience has led me to have a newfound respect for the Indian soldier. Starting the day with such discipline and carrying out the duties given to us in a respectable manner has made a positive impact on my life and has made me learn the correct way to lead a successful life. I thank the National Cadet Corps for providing the Cadets with such an amazing Camp for our betterment and growth.
