

ADVENTURE IN NCC

Adventure is a form of activity where you get the opportunity to perform with highest levels of your enthusiasm and excel in that field. I do enjoy adventure activities a lot as I did an adventure course from HMI (Himalayan Mountaineering Institute), Darjeeling. I have joined NCC because of multiple reasons but my primary focus is adventure. Through NCC training we learn about various things which comes in handy during our adventure camps or trainings. For example, we learn to be self independent, we learn and practice determination, we gain confidence and most importantly we, as individuals, will be more experienced in life and can learn what leading a squad is.

In NCC, Cadets are given the opportunity to participate in a host of adventure activities including to Mountain Trek and Expeditions, Trekking, Parasailing, Sailing, Scuba Diving, Kayaking, Camel Safari etc. Adventure training in NCC provides the cadets the knowledge of the topography as well as experience of different weather conditions & adventures living under camp conditions.

There are many kinds of adventure and those can be land based, air based or water based. Some people have preconceived notions like adventure is not a field where you get any opportunity and you cannot make a living out of it. However, in my point of view adventure is a field where you will learn much more than what we all anticipate. I have big plans through the field of adventure. I have taken part in the Basic Mountaineering Course which we could be a part of solely because of NCC. I am looking forward to many adventure courses in the near future.

When I envision my life, I don't see myself living it in an ordinary way, I want to slide through the ups and downs in NCC. I want to be determined, motivated and disciplined in my life. I want to make our Nation proud by doing something good for my country. In the end I would like to state my notion that Adventure is a field where we all can excel if we are determined.

“Thank You”
