

YOUTH EXCHANGE PROGRAMME

My experience in Youth Exchange Programme Selection.

National Cadet Corps (NCC) is a youth organisation of the Indian Armed Forces. Recruitment of the cadets are done in schools and colleges across the country. The cadets are given basic military training in small arms and drill.

In this NCC activities YEP selection gives me a best experience for me to understand the usage of going to other foreign countries, helps me to learn about their culture. This selection process I could know myself more, I gained more confidence in myself through group discussion, examination regarding NCC, interview to share myself.

I thank my battalion and all the friends who supported me and giving me this opportunity. JAI HIND.
