

## My experience in NCC

I join NCC as a cadet on Sept 2021 from then to now, I have learn many things which will be important for rest of my life & I no longer be an NCC cadet after my tenure of NCC.

In NCC I always tried to learn new things and tries to maintain that habit for rest of my life. When I first join NCC I started from the beginning like drill, how to fallin-jallout, how to speak while on ground and all activities, for me it is all new things, because I never seen or tries to do such things which I was doing on NCC.

Jai Hind!
