

# My First Day IN NCC

NCC is the abbreviation of National Cadet Corps and it was raised on 15 July 1948. The motto of NCC is unity and discipline, it aims at developing character, comradeship, discipline and a secular outlook.

On my first day in NCC, I was overwhelmed to be in middle of new faces. I too was really excited because earlier in my school life I did not get an opportunity to be a part of NCC family. Whenever, I think about this day I still get goosebumps. It was the beginning of a new journey for me. On this day I met my seniors for the first time, whom I still consider as my role models.

Therefore, I consider my first day in NCC as one of the most memorable day of my life.
