

— 'Clean Ganga' —

Recently India witnessed the world's largest religious congregation as millions of pilgrims gathered for a holy dip in the Ganga during the Kumbh Mela. Since time immemorial, the Kumbh Mela has been a melting pot for varied beliefs, practices, philosophies, and ideologies.

Unfortunately, over time, the increase in population, coupled with unregulated industrialization and unsustainable agricultural practices, have led to a significant increase in pollutants in the Ganga river and its tributaries.
