

CRIME AND JUSTICE IN INDIA

India is an emerging international superpower with a rich and diverse cultural heritage derived from some of the earliest historical civilizations, a huge population of 1.15 billion, a strong economy whose competitive prowess has moved it to the position of sixth largest in the world, a stable and achievements. India is also a country that is wracked by a host of intractable and unyielding social, economic, and political problems that fester and continue to hobble its progress. The contrasts led the distinguished economist and former
