NCC Day at Sea was really a very good experience. It was my first experience to travel in a ship and it was also proud to be travel in Indian Naval Ship.I got a chance of a life time to travel on a ship.We ate and have lot of fun on the ship.Also we learned many things from that journey how to attack the enemies which come against us,How to escape when the ship is danger,Also how to transfer messages and things between two boats these all are the very good experience which i get from this NCC Day at Sea. It was really a memorable day for me.
