

Name: Tanuja. F.G.  
Class: 9<sup>th</sup>

School name: Kendriya Vidyalaya, Hassan.

## Sports: Volleyball.

Volleyball, is a game which is played in ball. Volleyball has a large court which is divided into 2 parts. "Between these two divided courts there is net pole which is height of 2.5m or 3m from the ground." In each court 6 players will play inside and 1 is libero means a player who join in the game, when an player is good to play or to get more points and covering whole court by themselves." Now, let us know about the player's position and what they play inside.

Number 1 position, will stand right side behind at corner of the court and they play serve.

Number 2 position, who stands near the attack line and they do smash attacks and cover the gaps.

Number 3 position, who stands in front line near the net and cover the straight line court of their position, even we usually say them / call them as setters / passers. They raise the ball and the attackers come and smash the ball.

Even we know, that "setters is the main player and they play in proper way then 50% of winning chance will be there". Number 4 position who stands near attack line as like no 2 same they also attack the ball, & cover the gaps and attend the ball and raise in verticle way. Number 5 position, is back zone player of the court who can cover the  $\frac{1}{2}$  of the court by saving the ball inside the court properly. Number 6 position, the player who stands in mid of the court and also between the "2 and 4 position they stand mid. If Opponent team serve the ball first ball should attend by back zone players and 2nd touch for the setters who set the ball vertically so that smasher like 2 & 4 can smasher with proper palm touch and with power. 2 & 4 players can jump and attack. While playing volleyball a player should be practiced well and they should have cabable to cover the court. Volleyball players should have well eyesite, good concentration, hearing things, fit and fire. Volleyball is very enjoytic game.
