Legend about a Legend

Date :- 23/11/22

Dates back to 21st of November, an unknown statement of an known/unknown. In 19th century a battle was going on and many were sleeping because it was a figment of imagination, to be clear a dream of a 21st century human. He was on a journey of suffering and sacrifices. He sacrificed sleep, blood and so on. This became a legend. This is kind of more than suffering, he fired bullets and if you've read this writings 2nd line thoroughly, then you are right, what the person saw was a legend. He was in a struggle; firing guns, travelling on a horse. This sounds interesting and his journey is yet not over, he is going on-travelling, struggling and so on. He is on his way to reach his destiny. The person cannot be stopped. He is sure about his journey's time, which will astonish you- 8...8, 8 days! The firing is for his NCC camp and it's just a ride on horse for about 50-60 ms and his destiny is his NCC certificate. The legend is non other than me! Firing, to be clear was at non-living targets.
