

BEECH CLEANING

My name is cadet Abhinav k k. I'm a second year NCC cadet in government brennen college thalassery. After joining NCC, my first authorized duty was to clean the Dharmadam beech. Not only for me but also for others who where enrolled with me. We reached the beech in early morning. Then we stayed together and started our duty. The villagers also supported us. They also stayed together and started cleaning the beech. The beech regained its original picture and also got some fresh air.

Like this we did many duties to ensure the society. This organization have an important role in our society. The organization, NCC can easily unite the society and there by the humans. So never drop a chance to enroll in NCC
