

Experience of NCC camp

NCC means National Cadet Corps

NCC was the turning point of my life, It changed me from a common person to a special person, It taught leadership, time management stress management, team work which myself unique.

- In the NCC camp all the cadet had to wake up at 5AM everyday, Exercise for one and half hour and then take bath, breakfast, Participate in some drill related activities, eat lunch at 1PM, It was my first ever experience of an NCC. Then participate in cultural program around 7:30PM to 8:30PM, we had to eat dinner and after the dinner we had to go to sleep, we were strictly instructed not to go out of our camps in the night.***

In this camp we learned about drill, shooting, Physical fitness, map reading, First aid, etc. Cadets generally take voluntarily interest in weapon tiring and firing. Cadets must be made to understand the aim and purpose of teaching drill, so that they are suitably motivated and do not take it as “fatigue”

- I loved the camp life and, I will miss it and the people, this camp taught me discipline to accept people the way they are, infused courage and strength, motivated me to do, I saw a mini India. We were abviously shocked becausweare exposed to living in the natural environment for the first time away from myhome.*

It was my first ever experience of an NCC camp, it was very exciting and fun filled, by the end of 3rd day when we come out of our camps, our instructor teasingly asked if we wanted to stay for three more days and we said, why not? That learning, and the confidence gave me to face difficult situation in life. This was the Best camp experience in my life..

I would like to say the life as a cadet is one of the best experiences. one can ever have as it teaches them life as it is and shows how it is to be an officer in the Indian Armed Forces. I say that NCC is one of the best opportunity in students Life to inculcate good leadership qualities and it gives a good platform to all.

Jai Hind !!
