Cadet Kruthika GN

1 KARNATAKA ARTILLERY BATTERY

NCC (National cadet corps) MYSORE

I would like to share my personal experiences being on NCC cadet. The NCC is a voluntary youths organization which recruits cadet from high school, collage and university all-over India and gives those voluntary military training. It's main aims is to groom the youth of the country into discipline was really interested to join NCC since my school age when I was in 8<sup>th</sup> class. I join NCC in high school and I completed "A"

certificate 13 KARNATAKA BETLEAN I have best experienced in A certificate I would learn Self confidence and leadership qualities. Everytime seniors are teaching unity and discipline. They are very strict while doing the drill. I think we learned basic things only but I want more learn more are somethings. I experience and learn in NCC

I continued in NCC " B " certificate and I join 1 KAR ARTY BTY NCC MYSORE In NCC was the turning point in my life. I changed me from common person. This year we have NCC camps but to this pandemic situation. We could not be the part of it but still hoping to go out And learn more things and NCC changed my attitude and helps me to built positive mind-sets because I am more healthy than others cadet but I think it doesn't matter because NCC is for students who are really wanted to be opportunities to improve their capacity in every situation or every time etc. So proud to be an Indian and also NCC cadet. 3 years journey of NCC is completed now and now I continued NCC

**Thank you sir and ma'am for giving opportunity in NCC**
