

Today is a day of great experience.

Today is a day of great experience. I get into the ship called INS Sujatha. Sailing in the INS Sujatha all around the sea is like once in a life experience. I liked it very much. I am in the group G1. I liked the helicopter activity that is very impressing. Then I get to see the cargo transporting and human transport from INS Tir to INS Sujatha which is regulated by the ship crew not by any mechanical help. Boating also happens from the ship. Firing is also given a great experience. The food provided is also good. Totally today is an unforgettable day.
