

## CAMP EXPERIENCE

Myself cadet Avandhika Ajith P .The first camp I had was his seven days ATC camp , which was my first camp. The camp was held in the depaul college we. Really enjoyed that camp and at the same time we studied many things. Morning we had drill, classes took by PI Staffs come on evening we had PT .The cadets of that college became good friends of us. We had gone for trecking one day . It was a wonderful camp.

The second camp I got was the five days firing competition camp from group headquarters calicut. The place was really amazing. There were cadets of different battalions .Here we don't have drill or PT and so on. The credits are grouped and one or two groups are taken at a time to the firing range and after they come back they sent the next group. This firing camp was also a great experience.

I also attended the TSC selection camp. There the very first day we attended Firing, obstacle training ,map reading and health and hygiene. But the second day onwards we are grouped and we can select only one or two Competition items.
