

MY 1 YEAR EXPERIENCE IN NCC

My personal interest to join NCC came when I saw an NCC cadet in NCC uniform with many badges & medals tucked on his chest. Since I was in class 12 that time so I promised myself that one day I'll also wear this uniform with chest full of medals and badges and will attend most prestigious camps in NCC. Then I came in college I gave my name for NCC selection. I clear the selection procedure and then after selections I came to know that if anyone who want to join NCC should have to maintain high Mental & Physical standard. So, after joining the NCC I was no more a normal guy many inner and outer qualities changed me like self discipline, organizing ability ,physical & mental ability and many more. And yes NCC also gave me the chance to participate in various activities and camps in my first year in NCC service. And yes seniors are the most important part in every cadet's life as they are the only who will guide and motivate in your NCC journey. As I only complete 1 year in NCC but learn many things which will help me in living a good life. I thought that NCC bring time for me and provide me much
