

Artical writing on NCC Camp.

This camp was my first time and it was my first first time i am leaving without my parents. at first i was scraed beause i was thinking like what will happend, what will I do. At first day it went smoothly beacuse I was with my friends as I got super class with my friends as I enjoyed at first day. In night "CO" ~~Played~~ or some teacher Played the songs instead of showing Airforce movie or videos It was really fun because I singed a song loudly as I enjoyed with friend.

~~Second day~~ for the first time I waked up early morning at 4am without my parents. After that ~~we~~ they took us to morning walking, jogging ~~as~~ as we came to campus as we learnt or did some yoga then we had breakfast as we had had parade.

~~on that~~ Then we all got an experiance or opportunity to ~~ride on~~ have a horse ride. I was so good, we learnt about what is ambulance ~~as~~ what ~~as~~ all ~~as~~ there in it they explained so neatly.

I saw a girl from another school she was so cute. I thought she is senior, then I got to know that she is also same age as my age. I was wanted to talk to her but she was busy with her friend so I don't wanted to disturb her so I went back. I talk to her one day ~~to~~ she talk nicely but after that I got to know that she have an attitude. In that case ~~as~~ I thought that we are also a human we also have a same attitude like her. In this I learnt that we should not show so much attitude to other's who we don't know. I was missing my parents so much And I got to know the value of the parent, earlier I was not knowing the parents value because I was not outside to stay over a night as washing our plates as Glass.

In this I learnt ~~to~~ how to respect other's as discipline. I enjoyed a bit as I learnt a lot!
