

Topic :- Unity & Discipline

In unity & Discipline. I am going to start from unity. What is unity? Unity means the group of people working with together. Because working with together makes work easy. Now I am going to give you one example. In an office there is an employee not working or a employee a how to join all the parts to make a aeroplane. Because he has to introduce his aeroplane in 2 month so he was working on it for 5 days & he did not do his aeroplane of 5%. So he called his friends & his friends where working on the aeroplane & his friends advised that where is what should be attached, where should be engine should be attached, where should be subinate should same, where should be control room should same.

So the aeroplane is finished. Now unity means working with together makes work easy. Now about Discipline. Discipline means the respect given to teacher, Parents & elders. Now I am going to give one example.

In our Bus Depark was going Bangalore to Mysuru with his mother in the Bichadi there are elder Grand father name to the Bus & Depark stand up from his seat & gave his seat for the grand father. Because the grand father was elders than Depark. Because Grand father can't stand for longer time. If the teacher is talking with someone do not interrupt in the middle. Because what is teacher is talking with somebody with the same teacher you interrupt they will forget the what they are talking that makes you discipline. In N.C.E CO, P.I staff & ANO's are older than the cadets because they give respect to all it is all about Unity & Discipline.
