NCC

NCC is a good experience for me and my friends. We enjoy NCC in our daily life. NCC gives the unity among us and make us disciplined in our day to day activities. The NCC parade, which we usually do, keeps our body healthy and fit. NCC certificate can give a job opportunities to join in our country's military. It also helps to join in NDA i.e National Defence Academy, which is one of the best military academy in the country. The NCC also develops the leadership quality in us. For example our seniors have developed that quality. We were very shy about being a representative or participate in a competition or anything else, but Now we are able to do anything with courage and confidence. We are proud and happy to be an NCC cadet.
